

PASSERELLE, SPOR National Training Entity

Supporting and promoting capacity building efforts in patient-oriented research

Our mandate

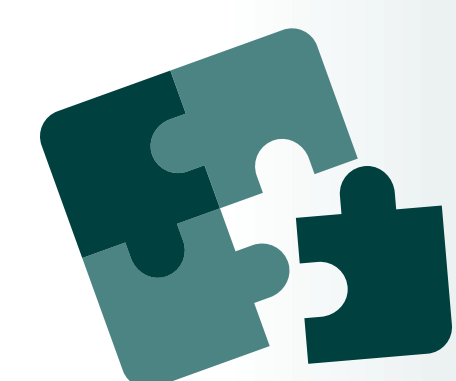

Who is PASSERELLE?

PASSERELLE, acting as a network of networks, is a national hub in capacity development dedicated to supporting and promoting the collective efforts to develop and sustain an inclusive and culturally safe capacity in patient-oriented research (POR).

Did You Know?

PASSERELLE is a bilingual organization, offering its services in French and English.

What can PASSERELLE do for you?

LEARN

Learning Pathways

Contextualized pathways that provide a comprehensive and engaging learning experience, ensuring that learners access the necessary training, resources, networking and mentoring, and experiential learning most relevant to their field of interests and their level of expertise.

Fundamentals & Curriculum

Access to a POR Fundamentals and topic specific curriculums (e.g., POR methods) that bring together existing trainings and activities from our partners in addition to new, tailored ones.

Self-Directed Learning

Access to a centralized inventory of POR learning activities and a learning platform (RISE) to keep track of activities, earn certifications and badges, and access additional activities across RISE partners.

SHARE

POR Community

Support and facilitate the growth, strengthening, and engagement of an inclusive POR community throughout our activities and services.

Networking & Mentorship

Facilitate networking to create collaborations, as well as unique support for learners who wish to find a POR mentor. All are invited to contribute to this program and become mentors to share their knowledge, support the next generation, and contribute to the greater POR community.

Conferences & Events

Lead or support members of our POR community or interested organizations in the planning and conduct of patient engagement and POR related conferences, events, and activities.

Tools & Resources Repository

Centralization and access to a wide range of tools and resources for patient engagement and POR, such as guides, planning and evaluation tools, and recorded webinars of best practices.

EMPOWER

Onboarding Programs

Processes, tips, resources, and activities leading to meaningful POR partnerships and mentorship, appropriate logistics and support, and active communication across teams or organizations.

Scholarships & Fellowships

Offer and support, multidisciplinary, and intersectoral POR programs where fellows have access to practical and activities, experiential learning, networking and mentoring, and funding. Facilitate a community of practice across awardees and fellows.

Funding Opportunities

Encourage and facilitate a culture of learning, innovation, and advancement of the science and practice of POR through small seed grant opportunities in collaboration with POR partners.

Consultation & Guidance

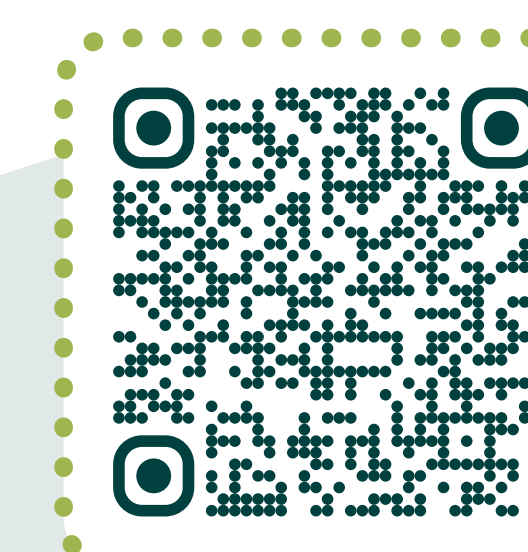

Personalized consultation, co-building of capacity development opportunities, and tailor-made process supporting teams or organizations with the integration of POR principles into their activities and environments.

Who is PASSERELLE for?

We welcome any individual and organization eager to learn about and engage in patient-oriented research
